### Kaleidoscope Spring Session Information

Registration will go through the school. Please return form and payment (made out to the school) to the office or homeroom teacher. If registration is completed online, a paper form doesn't need to be returned. For general questions about Kaleidoscope, contact Tonya Cooper at [tcooper@seeschool.com](mailto:tcooper@seeschool.com). Space is limited in every class. If a class is full after you submit in your registration, Ms. Cooper will contact you as soon as possible to see if a different class might work instead. If minimum numbers are not met, Ms. Cooper will contact the parent to see if a different class will be acceptable and any payments will be returned as needed. Please make sure your child's schedule will accommodate a class before registering. Withdrawing after registration is closed causes potential problems with meeting class minimum numbers. Registration for the spring session closes at midnight on Tuesday, March 3rd.

In addition to the registration form (Pg. 1 of this document), parents must also sign an Adult Hold Harmless/Indemnity Agreement for each activity (SEE BELOW).

Kaleidoscope students go to the cafeteria at dismissal. Younger students are escorted by a teacher. From 3:00-3:15, the students will have a snack (please let Tonya Cooper know about any food allergies). Vendor teachers will meet students in the cafeteria for pick up for their class. Classes run from 3:15-4:15. Dismissal begins at 4:15. Vendors dismiss students. Please be aware that dismissal can take time, especially for our cooking and making classes. Ms. Cooper will contact parents to let them know where dismissal will occur. Students who go to daycare will be checked into daycare after dismissal is over by the vendor teacher. It is very important when you register to let us know if your child will be picked up or if they go to daycare. See Calendar of dates above.

Class descriptions are listed below the Adult Hold Harmless / Indemnity Agreement.

## Cooking with Edible Education - Foods Around the World

\*Note: Both cooking classes are the same, just offered on two separate days\*

Hola! Bonjour! Kon'nichwa! Join the Edible Education chefs for a culinary tour around the world, where your taste buds will take a stop at some of the world's best food destinations. Some of the countries on this culinary adventure include Mexico, France, and Japan. A great food adventure awaits, are you ready to take the journey with us?

School enrichment classes never tasted so good! Our classes are one hour long and students prepare three to four recipes per class. Our trained chefs provide step-by-step, age-appropriate, hands-on instruction for your kids, which makes learning to cook real food fun for everyone! Edible Education classes are designed to:

### Theme

- Provide students with the opportunity to interact with role models displaying healthy eating habits and lifestyles
- Get children up, active and participating in meal planning and preparation
- Fight childhood obesity
- Bring Virginia Science and Math SOL's to life
- Broaden a child's knowledge and understanding of the world with international cuisines
- Teach cooperation and the ability to work well with others to complete a task
- Have a ball!

We use locally sourced, seasonal produce. We welcome children with food allergies and specialized diets. We do not use nuts, nut products, or artificial colors. We do use hormone-free meats along with soy, rice, and coconut milks. All recipes are provided when the session ends.

<b>Dates</b>	6 sessions, Wednesdays - 3/18, 3/25, 4/1, 4/22, 4/29, 5/6 *NO CLASS April 8 or April 15th - Early dismissals/Easter Break*
<b>Grades</b>	K, 1st, 2nd, 3rd, 4th, 5th, 6th, 7th, & 8th
<b>Price</b>	\$115.00
<b>Format</b>	This session is for up to 12 students. Minimum enrollment is 10 students.

## Thursday Classes

### Computer Game Making Lab

### Theme

Love playing video games? Watch as your own imagination comes to life when you make your very own video game. Gamers will use drag and drop coding to make a game that displays their personal style and interests. Racing games, mazes, tag games, follow the leader, or "kid-friendly" battles that include levels, scorekeeping, storylines, multi-player, and more. The possibilities are endless!

Our video-gamers-in-training will learn to code...

- Landscaping and environmental fabrication capabilities in video games

	<ul style="list-style-type: none"> <li>• Designing and programming characters</li> <li>• Coding their characters for action &amp; motion</li> <li>• Changing character behavior based on events</li> <li>• Adding power-ups, health, and timer</li> <li>• Creating multiple levels in their games</li> </ul>
