### **Mind Math through Engineering for Kids**

Mind Math, or Mental Math, is a method used by all countries whose children top the chart in math scores like Singapore, Hong Kong, South Korea, Japan, Shanghai-China. ALOHA stands for Abacus Learning Of Higher Arithmetic. It trains the right brain in young children, which is the right way to learn math. Children who learn math this way have great confidence in their abilities, develop an early love for math, and excel in all future endeavors involving math. *\*Since this is only an intro program of a total of 5 hours of instruction, and nowhere near a full program, and in order to keep costs down for parents, we will ask for a \$20 deposit for each abacus. The parents get the money back at the end of the 5 weeks. Regarding the deposit for the abacus, I will accept \$20 in cash or check written to EFK-RVA on the first day of class. I will only hold on to them and will give them back upon the return of the abacus on the last day of class.*

<b>Cost: \$60</b>	<b>Ages: K - 5th</b>	<b>Ages: K-2, Min 6, Max 10 / Ages: 3-5, Min 6, Max 15</b>	<b>Lead: Angela Craven</b>
