Class Descriptions**Bricks 4 Kidz - Let's Build a City!**

There are many different types of engineering jobs, and building is one of the most fun! What would a city be without the architects and engineers who come up with the ideas, plans, and building skills to make it all come together? Participants will put their engineering and architecture skills to work as they build city themed models using LEGO® Bricks, Technic Bricks, gears, axles, motors, and batteries. The sky's the limit when builders are challenged to use their own ideas and skills to build their own city-- brick by brick! What an accomplishment to be able to proudly exclaim, "We built this BRICK City!" Each student will build and take home a custom mini-figure.
